

Report Statement

Report Purpose:

6. Grants Review Update

Author:

Town Clerk

Updates:

Many of the grant applications and enquires about applications are to fund gardening and growing type projects, which is fantastic. However, with the increasing amount, and with it being difficult often to judge an application on paper, the proposal would be to involve the Town Rangers. The process would be if a group or organisation considers applying for a grant for this type of outdoor planting project, that the lead ranger be consulted with the application. The experience of the lead ranger will assist the finance committee to judge the potential of the project.

Proposal:

To consider adding the view of the lead ranger for grant applications that involve planting and growing.
