Dear Helena,

Re: Jordan Gate tree lights

Further to our recent exchange of e-mails, we now have pleasure in submitting our formal quotation for the re-dressing of the tree lights of Jordan Gate. Details as follows:

To supply a 1 no. 20m length of CherryLED festoon with 50 no. ultra-bright warm white lamps protected with clear polycarbonate globes, for the sum of **£475 total**.

To completely strip off all lights on all nine trees, inspect all of the cables and then re-install along with the one new set of lights, for the sum of **£2,870 total**.

Grand total therefore would be £3,345 + VAT

Please note that all prices quoted are net excluding VAT.

We trust that this meets with your approval and await your further instructions in this matter.

Assuring you of our best attention at all times.

Yours sincerely,

Martin Avill
Sales & Marketing Director
