

Appendix 1 : Macclesfield Town Council Ward Budget Application Form

Name of Ward: West and Ivy

Tell us about the project?

A seat for the Community Garden on Kendal Road of which work and maintenance with residents is on-going.

How will residents' benefit from this?

Good seating will enhance both relaxation and the general attraction of this small garden. It will replace the broken chairs that are from time to time removed.

How will residents help the project?

It has been discussed with the residents opposite and adjacent to the garden; volunteering has remained relatively positive for clearing, planting and ideas for its use.

What difference do you hope this project will make?

Seating that blends should add value and beauty to a space that had run into neglect. There is a new sense of ownership that hopefully will continue. Residents have taken turns to offer time and loans of tools for its improvement.

How much will it cost?

I wish to be advised on cost
