Printing and Photocopying Report

Author:

Town Clerk

Background

As you will be aware we have been in the current contract with the present supplier since MTC started, and the machine and the service has been poor, which has caused significant difficulties for the staff team.

At Personnel Committee 15th February 2022 the Clerk was tasked with looking at a printing solution which is suitable, cost effective and efficient.

Update

Firstly, an investigation took place on buying a machine ourselves to use.

Pro:

• We are not tied into a lease.

Cons:

- It is significantly more expensive per copy (1.6p B&W, 9.3p Colour)
- It is slower (up to 27 pages per minute)
- Maintenance is not included.

Secondly, 3 quotes were sought for suppliers of machines to lease.

Lease per quarter	87	147	127.1	159.12
