

Report Statement

Report Purpose:

Reserves and South Park Pavilion Update

Author:

Town Clerk

Background

The South Park Pavilion Working Party has been set up to manage and oversee the progress with the new pavilion building. It was agreed to feedback to every full council meeting at the meeting on 6th December 2021.

Update

The structural survey is complete, and a summary received as we wait for the full report. The existing slab can be used but must be lightweight and roof loads need to be kept light. The trees survey has been completed on 10/07/22 and we again wait for the full report. A survey of drainage is necessary to see if existing amenities and drains can be used.

The Bower Mattin team presented the working group with 5 designs which will all go forwards for public consultation.

The public consultations will take place at the following events in South Park:

- Youth event 11th Aug
- Civic event 13th Aug
- SPARK event on 21st Aug

And also, at Treacle Market in August.

A stage 1 lottery bid for this project has been submitted.
