

Report Purpose:

Town Centre Signage Project

Author:

Town Centre Manager

The archway for the Castle Quarter

This is still ongoing. The Town Centre Manager met with Andy Simpson from Cheshire East Highways at the beginning of September to discuss next steps. Andy is speaking to the relevant people within Cheshire East and will feed back to the Town Centre Manager. We are still waiting for an update on this.

Public Toilets

The Town Council have done signage for the new toilets. Copies have gone to library, VIC and others, plus new maps are up for the Indoor Market with the toilets marked on. We also have some triangle correx boards to go up.

Railway Station

The Museum on the Street project will involve placing a welcoming board outside the station, this will replace the one placed there 10 years ago by CEC which is now out of date.
