

Report Purpose:

Town Centre Regeneration Working Group

Author

Town Clerk

The Grosvenor centre has now been sold, and we are awaiting an opportunity to meet the new owners as part of wider town centre regeneration efforts. Mill Street continues to evolve, with the opening of Medo Café and the expansion of Blue Tree Shop, adding to the growing businesses.

The recent refurbishment of Macclesfield Indoor Market has meant welcoming a range of new vendors, including The Hodge Podge Wizard, Lady of Loops, and Makers at the Market, bringing fresh energy and variety to the space. In addition, the Corner Stall provides a pop-up opportunity for just £25 per day, giving small traders an affordable way to test the market and engage with customers. Beelzebub, who supported the Halloween event, will also take up a pop-up space on 29 November to coincide with the Christmas event, and other local makers are encouraged to take advantage of this low-cost option to trial a retail presence and raise their profile in the town.
