Have you made any progress on your project so far? If so, tell us about this below:

The community grant was kindly awarded for the purchase of a secure equipment storage unit for our Scout and Guide group. This will be installed behind our hut on Station Street.

In order to prepare the ground where the new storage unit is to be erected, we need to clear and level a large area covered with brambles and other overgrown plants. We recently organised a big community clear-up session, inviting our young people (Cubs and Scouts on this occasion) and their parents and carers, as well as group leaders and other volunteers. More than 40 people came along and we successfully cleared the area.

We've now been able to access and accurately assess the ground, and have made a plan for installing a weed suppressant and gravel base.

What have you learned from so far from this project?

We have learnt that we have a great community of willing and able volunteers, who can pull together to get a job done. Fuelled by coffee, juice, and biscuits.

When do you expect the project to be complete?

We plan to complete the ground preparation during October 2026. The storage unit can then be ordered and installed in November/December 2026.
